#PPCD

**Patients** remain the most valuable asset in clinical development. Involving patients, their families, their associations/advocacy groups and their caregivers in clinical projects has proven to be very beneficial for all stakeholders involved.

Contributions from patients have resulted in the conceptualization of clinical trials with patient-friendly aspects built into trial design. Collaborating with communities on local and regional levels may definitely help both funding, planning, recruitment and retention.

## 1<sup>st</sup> PATIENT PARTNERING IN CLINICAL DEVELOPMENT

March 6<sup>th</sup>, 2018 Berlin (Germany)

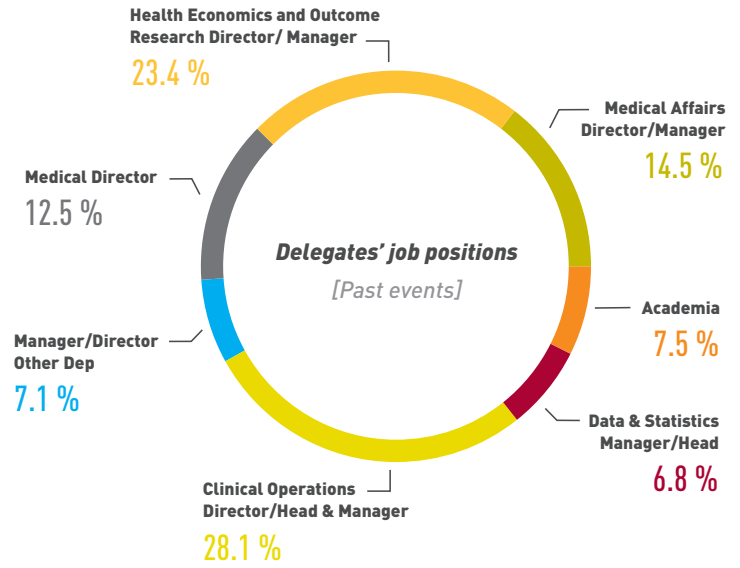

www.epiforum.eu
